

CONTENTS

<i>No. Title</i>	<i>Page</i>
*AGRONOMY:	
1. Effect of potassium fertilizer on quality and productivity of sugar beet. By: Kh. El-Sh. Mohamed and S. R. Khalil	1
2. Evaluation of some promising sugar cane varieties grown under Upper Egypt conditions. By: Kh. El-Sh. Mohamed and K.S. El-Sogheir	8
3. Selection of high yielding lines from heterogeneous Jordanian barley landraces under well watered and drought stress conditions. By: A. H. Abdel-Ghani	13
*FOOD TECHNOLOGY:	
4. Effect of particles size of some cereal brans on the quality of high fiber balady bread. By: M. M. Iraqi, N. A. Ali and A. S. Barakat	30
5. Production and evaluation of high folic acid balady bread. By: A.E. Mohamed, H. F. Ahmed, M. A. Atwa and N. M. Abd El-Motaleb	37
* HORTICULTURE:	
6. Adaptation and selection for new salinity tolerating tomato line (<i>Lycopersicon esculentum</i>). By: H.H. Hamed and S.M. Ahmed	46
7. Analysis of jojoba oil extracted from in vitro callus and seeds by GC/MS. By: E.M. Badawy, O.M.El-Shehy, A.M.Habeb and D. A. Ahmed	59
8. Improved productivity of german chamomile by foliar application of complete fertilizer and salicylic acid. By: H.A. El-Shamy and A.S.H.Gendy	67
*MICROBIOLOGY:	
9. Simultaneous removal of zinc, copper and cobalt from contaminated soils by biosurfactant. By: M.M.S. El-Shahad, W.D.Saleh and M.Z. Sedik	78
* SOIL & WATER:	
10. Characteristics of phosphorous sorption by some natural sediments of Saudi Arabia. By: A. S. Al-Farraj, S. E. El-Maghraby, A. Sh. Sallam and M. I. Al – Wabel	87
