<i>No. Title</i>	<i>Page</i>
*AGRICULTURE ECONOMICS:	
35. The economics of apple production in Shoubak/Jordan. By: M. A. Bdour.....	340
*AGRONOMY:	
36. Combining ability analysis using double cross hybrids in maize. By: M. A. H. Al-Falahy.....	348
37. Effect of irrigation intervals and defoliant application on yield and fiber quality of Giza 92 cotton variety. By: S.E. D. Elayan, A. A. Abo-El-Dahab, A.S. Arafa and A. I. Mahmoud.....	358
38. Integration between nitrogen, manure fertilizers, cultural practices and glyphosate on broomrape (<i>Orobanche crenata</i> Forsk) control in faba bean (<i>Vicia faba</i> L.). By: A.E.A. Ismail.....	369
39. Utilization of uniformity trials to estimate optimum plot size and shape and number of replications in maize yield trials. By: Sh. A. M. Shaboon, H. S. A. Fateh and W. M. Fares.....	379
*ANIMAL PRODUCTION:	
40. Kinetics of phytic acid degradation in two accessions of velvet beans treated by UV radiation. By: M. S. Al-Rawashdeh, G. J. Al-Rabadi, Nofal Al-Ameiri, and Veerabahu Ramasamy Mohan.....	389
*FOOD TECHNOLOGY:	
41. Chemical and biological studies on some pomegranate products. By: S. A. Arafa.....	396
42. Effect of anthocyanin rich vegetables on heart diseases risk markers. By: KH. M. Nematalla.....	409
